DEAN'S LETTER

I hope everyone had a blessed and Happy Easter resurrection to include many beautiful services filled with glorious music. My holy week included a magnificent choral concert performance by the Mansfield University Concert Choir. Several AGO members were in attendance and were hosts to some of the students. Thanks for sharing and caring.

I recently had the opportunity to spend a little time with Felix Hell who performed last month on the new Allen organ at First Presbyterian Church. Matt Baldwin of Menchey Music gave me a personal tour of the new organ prior to Felix's planned rehearsal. Having fondly remembered the cramped Moller pipework in the organ chambers at First Presbyterian, I was pleasantly surprised to tour the new organ chamber which is easily accessible and is laid out in a concise yet orderly fashion. What a difference when planning and coordination takes precedence.

Our May 31st annual student/member recital will be held at First Presbyterian Church. If you would like to perform as part of the recital, please inform me. To date, I have several responses.

We also have Gabriel Benton who is auditioning for the Senior award for the Hunt Organ Scholarship. Gabriel is a talented young man and plans to study music at York College.

Do mark your calendars for this final event to include election of officers for the upcoming year.

Please also check the calendar for additional musical offerings listed throughout York County.

Also, please consider joining the York Heritage Trust in June for the Old Salem Museums and Gardens tour to include visiting Tannenberg and Taylor and Boody organs.

Lastly, registration is still available for the Region III AGO convention to be held in Hampton Roads, Virginia in July.

I HEARD YOU SOLEMN- SWEET PIPES OF THE ORGAN

by [Walt Whitman](#)

I heard you solemn-sweet pipes of the organ as last
Sunday morn I pass'd the church,

Winds of autumn, as I walk'd the woods at dusk I
heard your long-stretch'd sighs up above so
mournful,

I heard the perfect Italian tenor singing at the
opera,

I heard the soprano in the midst of the quartet
singing;

Heart of my love! you too I heard murmuring low
through one of the wrists around my head,

Heard the pulse of you when all was still ringing
little bells last night under my ear.

From: Richard Frey [rfrey@trinityucchanover.org]

Dear Musician Friends,

At my previous church in Ridgewood, NJ, anthems were kept in the music library in storage boxes. When I got there, and for the first 20 years or so I was there, the boxes were custom made and opened at one end. They were red, and came in two widths. After these were dis-continued, we went to the standard black and gray boxes that open at the top. I think we got them from Peppers. These also were in two different widths. When I was at the church last month, all the boxes were out in the hallway, and the music is now stored in folders. I pleaded with the minister and the sexton to not allow them to be thrown out. Both types of boxes were very expensive. They are made out of a heavy-duty cardboard material and last forever. Attached is a note I just received from the secretary saying that they will be thrown out on May 1 unless someone claims them. There are hundreds of boxes, and they are FREE! For those of you in NJ who may be interested, please give the church a call (201) 652-2868. For those of you in PA or other areas, I can pick up the boxes and bring them here, and make arrangements to get them to you. Where I am at now the music is stored in folders and there is no room for boxes. But I just e-mailed Helen, the secretary, and said that I would be e-mailing many of you to see if anyone is interested in them. If no one is, I will come and get them in a couple weeks, and store them at home someplace. Please let me know if you are interested.

Subject: AGO Region III convention information

Greetings to all Region III AGO members.

First, thank you to all those who have already registered for the 2009 Region III Convention and booked rooms at our convention hotel, the elegant Norfolk Waterside Marriott. We look forward to seeing you in July, and you may now stop reading this message.

For those of you who are intending to register but did not get around to it yet because of minor details like playing for Holy Week services and filing your taxes, let us congratulate you on having both of those challenges in the rear-view mirror. Now it is time to look forward to the convention. Registration cut-off is on June 15th, just about two months away. We need the time between June 15th and July 5th to make our final preparations with the most accurate registration information, so June 15th is a deadline you need to take very seriously.

The most important information to bring to your **urgent** attention is that our room block of hotel rooms available at the amazing convention rate of \$119/night plus tax is now **60% booked**, thanks to excellent early registrations. You do not want to miss the opportunity to stay in this lovely hotel, right down by Norfolk's Waterside Drive, at such a fantastic rate. To avoid disappointment, as they say, book now!

And if you are going to book your hotel, you should also register for the convention, since those same early registrants have been filling up the spaces in several options. The banquet tickets are in high demand, for example. And if you want to register for any of our music reading sessions, you really should go straight from this e-mail to the convention website and get to work locking in your choices by registering immediately. The reading sessions are outstandingly popular.

The website is www.hitthestops.org and you can do it all online, or print off a registration form and mail it in.

Finally, if you have not yet thought about attending, avoid being left out and think about it now. We are anticipating a truly memorable convention. You do not want to be left thinking, "If only I had decided to Hit the Stops in Hampton Roads..."

Best wishes to all,
John Dixon and Martin Sunderland

Tannenberg

On Tuesday, June 9 from 7:00 – 8:30 pm the York County Heritage Trust is proud to offer a lecture on David Tannenberg and the organs that he built. The slide lecture and organ demonstration will be presented by Philip T.D. Cooper, who has spent the last two decades studying and documenting Pennsylvania German organs. In the summer of 2003, Mr. Copper designed and created a web page devoted to David Tannenberg, making available to the public the scholarly research that has been completed on Tannenberg.

Mr. Cooper will present a slide show on David Tannenberg and the organs that he built. He will speak in detail on the history of the York County Heritage Trust's 1804 Tannenberg organ. The lecture will conclude with a demonstration and performance on the Trust's organ. The lecture will be offered at the Historical Society Museum, 250 East Market Street. The lecture is free but donations will be accepted toward the completion of the restoration of the 1804 Tannenberg Organ.

Subject: York AGO Tannenberg organ recitals

It is time to schedule organists for the summer organ recitals on the 1804 Tannenberg organ located at the York Heritage Trust.

The concerts are held on Friday afternoons in July and August. Each recital is one half-hour in length and the concerts begins at 12:15pm.

The concerts will be held on the following dates: July 10; July 17; July 24; July 31; August 7; August 14; August 21; August 28.

Please email with your requested date if you would like to play a recital this summer. I will then forward the schedule to the Heritage Trust.

Dictionary of Unknown Organ Stops

- 8' Dullciana** - Only played to put the audience to sleep. Often played with the 16' Boredom.
- 8' Stopped-up Flute** - Keep the Roto-Rooter man on call if you have one of these in the organ.
- 8' Roarflute** - The loudest flute stop in the organ.
- 4' Krumpet** - Cross between a Krummhorn and a Trumpet. Mainly used to accompany Tea Dances.
- 16' Bombardment** - Large caliber pedal stop. It is wise to buy only the smokeless powder version of this stop. Its biggest disadvantage is the necessity to reload in the middle of long bass passages.
- 32' Counter Bombardment** - A really macho complement to the 16' Bombardment. Place these two on opposite sides of the organ and watch the fireworks! Not recommended for buildings constructed of unreinforced masonry.
- 4' AcetylSalicet** - Played to offset the headache generated by playing the 16' Bombardment and the 32' Counter Bombardment.
- 16' Proctophone** - Extremely loud and rude pedal stop. Useful with the 4' Flatulence.
- 16' Baboon** - Reed stop of African origin. Smells mildly of bananas.
- 8' Salacious** - Belongs in the X-Rated division of the organ along with the Sexaphone, the HotBois, and the Gemshorny.
- 4' Gambino** - A short Italian version of the Gamba. When this stop speaks, you listen - if you know what's good for you.
- 8' Violent Diapason** - Makes a good match with the 4' Gambino to accompany gangster films.
- 4' Spits Flute** - A raincoat is recommended when playing this one. Isolate this stop to keep it from warping the wooden pipes.
- 8' ViDeO** - One of the few really new organ stops. Requires cable or satellite connection.
- 8' Trumped up** - Not a real organ stop at all. Invented by an unscrupulous organ salesman to make the stop tabs symmetrical.
- 8' Hobo** - Shabby and poorly made stop. Grateful for any spare change the tuner might have.
- Zinfandel IV** - Made from old wine bottles. More colorful than the Chardonnay IV.
- 8' Geiger Diapason** - Made of (almost) depleted Uranium. Easy to find because it glows in the dark. When tuning this stop, it is wise to don your lead-lined underwear.
- 6 7/8' Genetic Mutation** - A stop which spontaneously appeared next to the 8' Geiger Diapason.
- 2 2/3' Lizard** - Keep this away from the 8' Geiger Diapason. Might mutate into a 10 2/3' Godzilla.
- Plain Joe Mixture** - Made from old Folger's coffee cans. None of this Espresso or Latte stuff.
- 8' Vox Inhumana** - A short stubby reed which is nearly impossible to keep in tune.
- 1 1/3' Lariat** - Originally developed in Texas to accompany Western films.
- 5 1/3' Quint Eastwood** - Another part of the Western division of the organ alongside the Lariat

Behind the scenes tour of Taylor and Booty Organ Building Shop

George Taylor and John Boody restored the Tannenberg Organs at Old Salem and Hebron Lutheran Church at their shop in Staunton, Virginia.

Special insight on David Tannenberg from local experts

York County Heritage Trust staff and Victor Fields, Dean of the York Chapter, American Guild of Organists, will participate in the bus trip.

After a successful trip to Colonial Williamsburg in October, 2008, the York County Heritage Trust is on the road again to visit Old Salem Museums and Gardens in Winston-Salem, North Carolina. Founded in 1766 by the Moravians, the restored town of Salem is a vision of life in a congregational community in the early American South. Costumed tradesmen and women re-create life by producing essential goods like tools, ceramics, furniture, and metals using traditional practices.

The three day (Wednesday, June 10 through Friday, June 12, 2009) bus trip will include many highlights, including a private Tannenberg Organ Tour at Old Salem. Old Salem is the home of the largest surviving pipe organ built by David Tannenberg. (The Historical Society Museum of the York County Heritage Trust is the home of the last pipe organ built by Tannenberg.) The private organ tour will include information about the 1800 Tannenberg Organ, a performance by a professional organist, a behind the scenes tour of the hand pumped bellows, and the opportunity for participants to play the 1800 organ. Participants will also receive a guided tour of the Museum of Early Southern Decorative Arts, the Winterthur of the South, which has one of the finest collections of Southern decorative arts that includes furniture, paintings, ceramics, textiles, and metalworks, and tickets to visit the Old Salem Toy Museum and the Historic Town of Salem.

The bus trip will also include a stop in Madison, Virginia to hear renowned organbuilders, George Taylor and John Boody, speak about the restoration they completed on the 1800 Tannenberg Organ housed at Old Salem and the 1802 Tannenberg Organ at the Hebron Lutheran Church. Hebron Lutheran Church's organ has been in continuous use since its installation by Tannenberg's son-in-law. The organ is the finest and largest surviving unaltered example of Tannenberg's work. After visiting the Hebron Lutheran Church participants will travel to Staunton, Virginia for a behind the scenes tour of Taylor and Boody Organbuilding Shop.

The cost for members of the York County Heritage Trust is \$325.00 for a double occupancy room and \$350.00 for a single occupancy room. For nonmembers the cost is \$350.00 for a double occupancy room and \$375.00 for a single occupancy room.
